

Teaching notes

- Print, cut out and laminate the letter tiles on page 3.
- Read the story with the children.
- Select some of the CVC words from the text. Ask the children to show you with their fingers how many sounds they hear in the word.
- Provide each child with the resource sheet (page 2) and a set of laminated letter tiles. Explain that they are going to build words from the text. Demonstrate how the tiles can be re-ordered to create different words. The children then write the words on the resource sheet, one letter per brick.
- As an extension activity ask the children to make up some more words that are not found in the text but that do use the same letter tiles.

- Use the letter tiles to make words from the story.
- Check the story to see if your word is there.
