Teaching notes

A set of 14 bingo cards designed for year 8 students, covering the topic of holidays in three tenses. For larger classes you could give students one card between two or simply copy two sets to add a further element of competition. Call out the Spanish phrases below at random, ticking them off as you go. The students should listen carefully (as some of the sentences are quite similar) crossing off the matching English if they have it. The winner is the first student to cross off all their phrases and shout 'Bingo'.
